Hazelton, Pa., Aug. 16 .- Twenty-five hundred mines of the Lehigh Valley and Wilkesbarre colliers, in the Honeybrook at a meeting tonight resolved in a body to stand together. This is the first defection among the miners of eastern Pennsylvania. Apart from the wage question, the men demand the transfer of Superintendent Jones, and the feeling against him is so strong that he has an armed escort and his house is guarded day and night. Officials of the company came here this evening from Wilkesbarre and New York and looked over the ground. They stated that they were not authorized as yet to say how the direc-

Thirty-fiv drivers went out on Saturday for an increase in wages. This morning 250 miners joined them. The Italians and Hungarians, the last to go out, are the most aggressive, and fears are entertained that they cannot be controlled. The men had no organization but a branch of the United Mine Workers' association was started this morning and 600 men at once signified their willingness to join. Chief Organizer Fahey of Pottsville was sent for this morning and is expected to be on hand soon. The men held a meeting last night and decided to make the strike general this morning. The entire force of coal and iron police, carrying Winchester rifles, were on hand to guard the coffieries. The strikers assembled on the hill above the works at Alliance and a crowd of 300 men marched past the deputies to the breaker. At a signal the men at work left their places. Washington, Aug. 16-William J.Jones, United States commissioner to Alaska, assigned to St Michaels, has sent to the interior department the following report on the gold rush, in a letter dated at Dyea, Alaska, August 4:

"There are nearly 1,800 people on the small force of deputies was placed at the Dyea and Skagway routes, and both trails are blocked. IGNORANT ARGONAUTS. San Francisco, Aug. 16.-Thomas Ma-Gee, well known as a conservative business man and a careful observer, who accompanied his son to Dyea, writes to the Associated Press from that point to the effect that the ignorance displayed by the crowds who were flocking to the Klondike fields is lamentable. Of the 490 passengers who sailed with him on board the steamer George W. Elder, half of whom were from San Francisco, not one in twenty had any definite infogmation as to how to reach his destination. While the routes were well known, the details and conditions to be met with were not considered, most of the searchers for wealth hoping to settle all doubts and uncertainties when they reached Janeau. Instead, however, further confusion was created by the appalling statements that there were only two routes, each of which necessitated the encounter of apparently unsurmountable difficulties. There were plenty of advocates for both routes at Janeau, but most of them were found to be interested parties. The two starting points, Dyea nd Skaguay, are separated by four o'clock tonight ,and Frank Waller was miles of sait water. The Dyea trail goes over the Chilcott Pass and involves a climb of 3,500 feet, while the other, which is nearly completed, has a 2,650 foot climb over the White Pass, and besides being six miles longer, is boggy in places. The Indians, who are bold packers, all pack over the Chicoot Pass from Dyea.
